

screamfree PARENTING

ScreamFree Parenting introduces principles that will guide parents of all ages (with kids of all ages) through the maze of busy schedules, numerous demands from within and outside of the home, professional and personal transitions, and child rearing challenges. This is an interactive class which invites parents to engage in a new way of thinking and living where the focus is upon the growth and empowerment of the parent rather than the typical child-focused approach to parenting. ScreamFree Parenting will help identify plans that may bring calm, connection, and mutual respect into the home. This revolutionary new option of parenting focuses upon “calming the world, one relationship at a time”.

Classes are available on request to individuals, groups, FRG's or Units.

No cost childcare available upon advanced request.
